Council of Four Expected to Reach Definite Decision To-Day

INTERNATIONALIZATION OF DANZIG IS FULLY DECIDED

Rumanian Troops Occupy Territory Allotted in Transylvania

EGYPTIANS MAKING CLAIMS

Question of Poland's Boundary Settled

### FAIL TO AGREE

(By Associated Press)

Paris, April 19.—(3:30 p. m.)—After a conference lasting more than four hours which was attended by both Premier Orlando and Foreign Minister Sonnino, of Italy, the council of four today failed to reach an agreement on the Adriatic questions.

The council adjourned to meet tomorrow to continue the discussion.

(By Associated Press)

With the question of Poland's western boundary settled the council of four of the peace conference today took up anew the Adriatic problem for final action.

As result of the council's deliberations, Danzig, the Baltic port claimed by Poland, is to become an international harbor. Poland will be given a corridor through German territory, it is said.

Italy's claim to Fiume and the Dalmatian coast was laid before the council of four today by Baron Sonnino, the Italian foreign minister.

A final decision on the question is expected late today.

Representatives of the Irish societies in America conferred today with Colonel E. M. House of the American mission, relative to claims of Ireland. It was expected they would ask that three Irish delegates be permitted to go to Paris for a hearing.

Another nationalist movement in Britain may be brought to the notice of the delegates by representatives of Egyptian elements which are demanding independence.

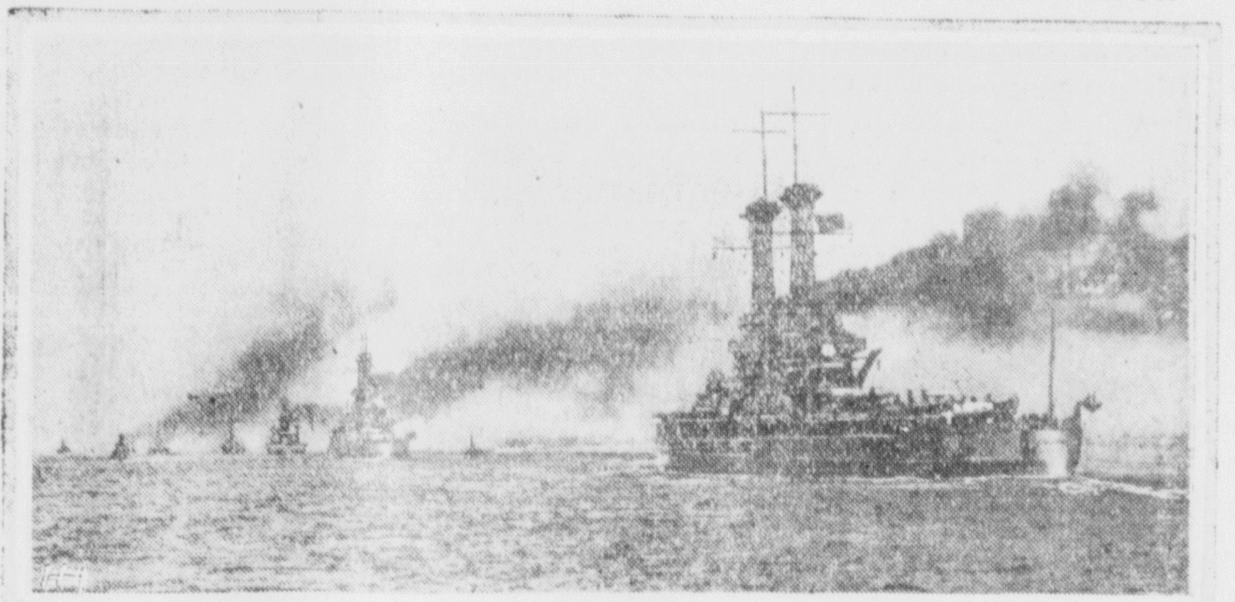

The Egyptians now are in France and are expected to reach Paris shortly to lay their case before the conference. Conditions at Cairo are reported to be grave as result of this movement.

It is announced Rumanian troops have been ordered to occupy territory which was provisionally allotted by peace conference to that country in Transylvania, formerly a province of the Austro-Hungarian empire. When the new Soviet government was established in Budapest it was declared that turning over of this territory to Rumania was one of the causes of the overthrow of the regime headed by Count Karolyi.

German government troops and Bavarian Soviet forces are believed to be fighting in or around Munich, but little as to the trend of events has been learned. In north Germany labor trouble continues, Bremen being the storm center of what appears to be a serious strike while strike movements also persist in Berlin.

ASKS AMERICA TO TAKE CHARGE

London, March 18.—"We ask America simply to assume a burden, to perform a service to humanity," says Professor Gilbert Murray, of Oxford University, in a statement advocating that United States accept mandate of the League of Nations to administer and protect Armenia.

"Armenia has been saved from the Turks and Kurds after suffering one of the most awful persecutions known to history," adds Professor Murray. "A remnant of the Armenians still alive can be reconstituted into a nation; but they will be too weak and disorganized to maintain independence or internal order, unless they are helped and protected by some other nation."

"The protecting nation must be very strong, absolutely disinterested, known and trusted by the Armenians and not already overburdened by other duties elsewhere. There is no nation in the world except America which satisfies these four conditions."

"If America will accept the mandate, the Armenians can still be saved as a people; if America refuses, one more great region of the world is in danger of slipping into anarchy."

THEY LIE IN FRANCE WHERE LILIES BLOOM

They lie in France  
Where lilies bloom;  
Those flowers pale  
That guard each tomb  
Are saintly souls  
That smiling stand  
Close by them in  
That martyred land.

And mutely there the long night shadows creep  
From quiet hills to mourn for them who sleep.  
While o'er them through the dusk so silently  
The grieving clouds that slowly drift to sea.  
And lately round them moaned the Winter wind  
Whose voice, lamenting, sounds so coldly kind.  
Yet in their faith those waiting hearts abide  
The time when turns forever that false tide.

In France they lie  
Where lilies bloom.  
Those flowers fair  
For them made room.  
Not vainly placed  
The crosses stand  
Within that brave  
And stricken land;  
Their honor lives,  
Their love endures,  
Their noble death  
The right assures.

For they shall have their hearts' desire  
They who, unflinching, braved the fire  
Across the fields their eyes at last shall see  
Through clouds and minst the hosts of Victory.

COUNTY'S DEMAND FOR BETTER ROADS MAY CRYSTALIZE

The almost unanimous demand for the betterment of Fayette County highways gives promise of resulting in a movement which will produce the desired results.

Fayette County roads are in as good or better condition than the roads in most of the surrounding counties but Fayette County people want them better and the purpose of the demand is to make them equal our ambition. The farmers insist that good roads will make possible a closer relation between the city and the rural districts and bring about that very necessary conditions to rural and city development and prosperity—union of producer and market.

There are at present, it is announced almost 2500 autos in Fayette County, representing an outlay by the citizens of the county of the huge sum of almost two million dollars and the number of cars is steadily increasing. From that fact it has been pointed out that the betterment of the routes of traffic and travel would affect the financial, business, and pleasure interests of virtually every inhabitant of the county.

The movement will, no doubt, assume a definite shape in the co-ordination of all those organizations in the rural districts and in the city which promote the best interests of the county.

The spark was flashed at a recent meeting of the Dutch Treat Club when the farmers were entertained and the question of county highway improvement was brought up.

The newly organized Fayette County Auto Club and the Dutch Treat Club stand ready to co-operate with the Farm Bureau, the County Commissioners and the city authorities it is announced.

DISTILLERS MAY SELL TO JAPS

Louisville, Ky., April 11.—Japanese agents are negotiating with American distillers for the purchase of machinery in their plants after prohibition becomes effective. The machinery would be shipped to Japan for use in distillation of whiskey there, according to Y. Kawahara, agent for a Japanese-American importing concern.

A bill before the Japanese Diet would prohibit use of rice in the manufacture of sake, the Japanese national drink. Japanese distillers now want foreign made machinery in which corn and other cereals can be substituted for rice, Kawahara said. He added that 24,000,000 bushels of rice are used annually in making 300,000,000 gallons of sake.

American distillers are reluctant to sell their machinery now, in view of the suit to test the constitutionality of the prohibition law.

## Cost Comparisons

In a recent issue of the "Country Gentleman" there is an interesting interview with John Mitchell on "Labor and the Cost of Living." Mr. Mitchell gives some interesting figures on living costs now and in Civil War times.

"Between 1860 and 1863," he says, "flour increased 100 per cent—between 1913 and 1918 flour increased 90 per cent. Pork, between 1860 and 1864, increased 162 per cent—in this war 140 per cent. Beef increased in the Civil War 127 per cent—in this war 131 per cent. In the Civil War butter increased 175 per cent—in this war it increased 31.6 per cent. . . . At the end of the Civil War, on December 2, 1865, flour was selling from fifty to fifty-two cents per pound. On December 2, 1918, flour was selling at seven and eight cents per pound. Potatoes sold at the same price—three and four cents a pound—at both periods. Canned products—tomatoes, for instance—sold for from twenty-five to thirty cents on December 2, 1865, and on December 2, 1918, they brought seventeen and eighteen cents for the same size can.

"In this connection it is important to know what comparative incomes were, so one can gauge the people's ability to buy. The purchasing power of a dollar at the close of the Civil War had fallen to fifty cents; at the close of the world war it was seventy-nine cents."

"In December, 1863—according to the only figures I have—the blacksmith got \$1.50 to \$1.75 for a ten-hour day—in July, 1918, the blacksmith got \$6 for an eight-hour day; carpenters, in 1863, received from \$1.75 to \$1.88 for a ten-hour day—in July, 1918, a carpenter received \$5 for an eight-hour day; street car conductors, in December, 1863, were paid from \$1.25 to \$1.50 for a fourteen-hour day—in July, 1918, the same men were paid \$2.40 to \$3.40 for a ten-hour day; molders in 1863 received \$1 to \$1.25 for a ten-hour day—in July, 1918, they received \$5.50 for an eight-hour day; painters received, in 1863, from \$1.50 to \$1.75 for a ten-hour day—in July, 1918, they received \$4.40 for an eight-hour day.

We are so much inclined to consider our present troubles are the worst which ever faced a people that it is encouraging as well as enlightening to compare present conditions with those existing in other times of trouble and industrial disturbances.

Cost prices, especially of foodstuffs and necessities, at the present time compare very favorably with prices of like commodities during and following the Civil War period.

The compensation which labor demands and receives at the present time and during the actual war period is in excess of the wage scale of the civil war period.

All of which seems to prove that government regulation of the food supply and food prices has served, to a very great extent at least, to check prices which under private control would have reached almost a prohibitive price level.

Another condition that has served, during the present time to keep the purchasing power of a dollar more nearly to the level of normal times is the financial system in effect in the United States.

The increased demand for labor during the present war period, because of the very much larger demand, occasioned by the nature of the present method of warfare, plus labor organization has served to carry the price of labor to a higher level than that obtaining during the Civil War period.

A comparison of present conditions with those of that other war period results in strengthening our confidence and bringing realization that the nation is by no means passing through the most critical period of its existence.

We have difficulties, true, but they are not more serious than those which the nation has faced and easily overcome at another period.

## General Glenn Explains

We like the attitude of Major General E. F. Glenn regarding the conduct of the American army courts martial which has been drawing such strong censure from some of the civilian population, notably the officers of the civil courts.

General Glenn makes it plain that the army must, above all things, be efficient and disciplined. If discipline is lacking, the loss to the army, in disasters incident to inefficiency far outstrips in real injustice and that which may attach to individual instance where too severe a penalty was imposed for infractions of army rules.

The obedience, the promptness, the strict attention to every detail exacted of the soldier is in no way to be compared with the demands made on the individual citizen by the civil laws. Minor offenses in civil life—even those which might be passed with a reprimand or even entirely—become grave offenses in military life and must be punished with a severity of sentence out of all proportion to the offense as it would appear if committed in civil life.

Of course we have the safeguard of executive clemency over all army courts martial, and yet it is possible that there may have been instances of unusual punishment assessed and exacted by the army officers in raising and conditioning and disciplining over three million Americans until they were individually welded together into what, General Glenn states, was the best disciplined army in the world.

Army life is harsh. The military is an autocratic institution and if we have it we must submit to its exactions. The only way to reform the military system is to quit having wars.

## POETRY FOR TODAY

### FORGET-ME-NOTS

The blue of the forget-me-nots  
A humble beauty wears;  
But the same light is in their leaves  
That powders heaven with stars;  
It minds me of blue legions  
That packed the great advance.  
The sparkle of the dancing eyes  
In the blue of fighting France.

The violet of the ocean.  
The gentian of the sky,  
I've loved them all my life, and now  
My life is passing by;  
A prayer to thee kind heaven!  
A kiss to thee, bright wave!  
But the blue of the forget-me-nots  
Smiles from my hero's grave.

—By G. E. Woodberry.

## OVERHAULING HIS OUTFIT

## FARM NOTES

### Apple Aphid Hatching.

Plant lice began hatching on the apple trees in central Ohio on March 17. They continued to hatch during the last of March and are now clustered on the leaf and blossom buds. If allowed to develop they will probably damage the young fruit before they leave the trees in May when they go to grain and grasses. The Ohio College of Agriculture recommends that nicotine sulphate be added to the delayed dormant spray, in order to kill them. If this has not been done the nicotine sulphate should be added to the April spray, which is applied in central and southern Ohio just before blossoming. For an apple-spraying schedule write to T. H. Parks, Agricultural College Extension Service, Columbus, Ohio.

### Demonstration of Wool Grading and Shearing

The annual sheep-shearing contests at the Ohio State University, which take place on April 9, bid fair to be of unusual interest. Shearing contests will be held of five kinds: (1) with hand machines; (2) with power machines; (3) with hand shears by professionals; (4) with hand shears by amateurs; and (5) on quality of workmanship. A speed exhibit with the hand machines will also be given. Besides the above, a prominent western wool buyer will give a demonstration of grading wool,

and will place comparative values on the different grades. A contest in the slaughtering of sheep and dressing of carcasses will be conducted by a class of students in the college of Agriculture. In connection with the above contests a number of silver cups and money prizes are offered. The shearing begins at 9 a. m. in the judging pavilion. Programs may be obtained by addressing the Department of Animal Husbandry, Ohio State University, Columbus, Ohio.

### Paid to Produce Quality Mutton.

A car load of choice wethers readily brought \$16.90 per hundred, or \$26.70 per head recently on the Chicago market. This is the banner price of the year. Less desirable shipments sold slowly for \$15 and better. The company selling this car load has been topping the Chicago market year after year. The formula seems to be well-bred feeders bought right, followed by good feeding and care.

### Agent in Morgan County.

William S. Barden of Wayne county has recently been employed as county agricultural agent in Morgan county with headquarters at McConnelsville.

## AERIAL BATTLERS WERE PLANNED

London, March 20.—(Correspondence of the Associated Press)—"Aerial battleships" would have been developed if the war continued another year, declares Lord Weir, the British Minister of Air Forces. Just before the armistice, aviators

were successfully using guns which fired shells instead of bullets.

Lord Weir said that aerial photography had been so developed that accurate photographs of the earth were taken from an altitude of four miles. In all, six million such pictures had been prepared by the Royal Air Forces. The speed of fighting airplanes had been increased from 90 to 141 an hour and the engine power from 80 to 300 horse power.

SOLDIERS ON WAY TO THEIR HOMES

Saturday afternoon numerous automobiles filled with happy "dough-boys" passed through this city after having received their discharges from Camp Sherman.

Their friends had gone down earlier in the day with gayly decorated cars in anticipation of bringing them home. Almost all the men wore the Thirty-seventh division insignia and here and there a wound stripe could be seen.

HARTMAN THEATER

COLUMBUS, OHIO.

Thurston, the famous magician, will be the attraction at the Hartman Theatre, Columbus, Ohio, all next week, beginning Sunday night.

Many a tired business man or busy house wife will be routed out of their easy Morris chairs and sent wondering off to the theater, possibly surrounded by the youngsters of the household all determined to bring home either a pigeon or a rabbit as a present from Thurston.

The popularity of Thurston is readily understood after seeing one of his performances. The absence of sameness is strikingly noticeable, every act is different from the one preceding it, for while one astounds and astonishes, the others may be of such an amusing character as to throw the audience into convulsions of laughter.

Thurston is conceded to be the inimitable entertainer in his class. His genial manner, his mode of execution of the various tricks and illusions, the gusto of humor he throws into his work, with his delightful patter add to the general excellence of the program for this season, which is made of new mysteries, and unlike the old-time magicians, he will bring with him a company of twenty-six people, who will figure in his elaborate productions. Some of these are programmed as follows: "The Vampire," "Gravitation Defied," "Every Woman's Wish," "Birds of the Air" and "The Miracle."

TWO HUNDRED GATHER FOR BIG RALLY DAY

Marion Township schools closed on Friday with an immense gathering of well over two hundred assembled in the big centralized building for a basket dinner, program and a rally day of mutual school interests, and social enjoyment.

It was altogether a most successful wind-up of an excellent year's work. The capable teachers, Mr. D. M. Feagans, Misses Marie Hughes and Dorothy Ware had the affair in charge.

Long tables were placed in the auditorium and everything in the line of "good eats" was there.

The guests were comfortably seated. A splendid program of recitations, dialogues, songs and folk games was rendered in the afternoon. The children's work showed careful training and called forth favorable comment for those in charge.

### FASTING FOUR DAYS DID HIM NO GOOD

BUT M. C. PAYNE OF PORTS-MOUTH NOW ENJOYS THREE SQUARE MEALS A DAY AND CAN EAT ANY KIND OF FOOD.

"For seventeen years I have suffered with emaciation, spells and bloating. I had no appetite and it was a common thing to go two or three days without eating, and have gone four. I have taken two cases of Dr. Parker's Treatment for Indigestion and Constipation, which has completely cured me, and I am now able to enjoy three square meals a day, and can eat all kinds of food. It has done wonders for me."

Now read Dr. Parker's generous offer to all stomach sufferers:

"Thirty-five years ago I was a confirmed dyspeptic. My food would not digest. I would bloat, belch, cramp and suffer after every meal. I could not relieve myself, nor those who came to me for treatment, with the medicines I knew. Treatments from other doctors failed. I determined to devote my life to stomach troubles—to find a safe, sure remedy. My treatment for Indigestion and Constipation is the result. It has taken years of study and experiment, but I succeeded. Now, I can guarantee relief from these troubles, and ask you to try my treatment at my risk."—Dr. Geo. B. Parker, Athens, Ohio.

Dr. Parker's treatment is sold by all local druggists at \$1. Your money back if it does not help you.

### GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Just massage Musterole in with the finger-tips gently. See how quickly it brings relief—how speedily the pain disappears. There will be special Easter music and both masses of unusual impressiveness. The public is cordially invited to attend.

St. Colman's has observed Lent with well attended semi-weekly services, on Wednesday and Friday nights.

### SEIBERN SCHOOL CLOSED YESTERDAY

The Seibern school closed Friday April 18. The morning was spent by the teachers and pupils gathering wild flowers and fishing.

After the noon lunch the teacher Miss Esta Henkleman, was agreeably surprised by the pupils and patrons with dainty refreshments of ice cream and cake.

The school has made a good record in the W. S. S. campaign since January 1st, having an enrollment of 18 and a per capita sale of \$75.28 to date.

### CATCHES LARGEST BASS OF SEASON

Frank Hard, Deputy State Game Warden, Friday landed the largest big mouth bass of the season when he pulled from Paint creek a fine big fellow that weighed 3 pounds 11 1/4 ounces. The bass was caught with artificial bait, at a point south of Rock Mills.

The big fellow has been entered in the Fayette County Fish and Game Protective Association contest for this year.

### \$166,600 IS COST OF NEW IMPROVEMENT

Announcement comes from Wilmington that the estimated cost of the rebuilding of the Washington and Wilmington pike, from the Fayette county line to Wilmington is \$166,600 and that the work will soon be under way with federal and state aid to help.

It is further announced that the total cost of road work in Clinton county this year will be a quarter of a million dollars.

### LOCAL CHIROPRACTOR IS HIGHLY HONORED IN APPOINTMENT

Dr. T. G. Beem, of Beem & Beem, local chiropractors, has been selected as both a member of the Publicity and Legislative committees of the Federation of Chiropractors. The federation is a national organization which was formulated during the war, its object being to bring chiropractic treatment to the wounded and shell-shocked returned soldiers.

The movement has received quite a little praise, the treatment to be given to the soldiers absolutely free, and was established to call the attention of Congress to the advisability of bringing chiropractic treatment to the soldiers. This would make it possible in the after war period, in the hospitals and reconstruction camps, for chiropractic adjustment where other treatment would not do. The treatment is said to be of special value in cases of shell shock.

Serving on the board with Dr. Beem is the president of the federation, Dr. N. C. Ross, of Fort Wayne, Indiana, president of the Ross College for Chiropractors.

On the Publicity Committee is Dr. B. J. Palmer, of Davenport, Iowa, head of the Palmer School of Chiropractors.

The selection of Dr. Beem as a member of this board is not only a personal honor but will mean quite a little publicity for Washington C. H. Only those men are chosen who are recognized as prominent in the profession. The organization is a national movement and has met and is meeting with gratifying success.

### FLIER STARTS ON SEA FLIGHT

(By Associated Press)  
East Church, England, April 19.—Major C. P. Wood left East Church at 3:15 yesterday afternoon for Limerick, Ireland, on the first leg of his attempt to cross the Atlantic in a Short airplane.

Major Wood started his flight in ideal weather. There was very little wind. He was accompanied by Lancaster Parker, a test pilot for the Short Company.

### FEW APPLICANTS ARE REJECTED

As an accurate indication of the value of military training, the following figures are very suggestive:

Before the war brought America's manhood under military training, 47 percent of the applicants for enlistment in the regular army were rejected. The latest figures show that since recruiting was re-established a little over a month ago only 7 percent are rejected. The wide discrepancy can be explained only by either one or both of two reasons; America's manhood is improving, or a higher class of men is coming into the army.

The promise of immediate service over seas has brought in a great number of good, red blooded, men who want to see the other side of the big pond.

### RESUME BUILDING AT CLEVELAND

Cleveland, O., April 18.—Gradual resumption of the building industry, opening of lake navigation and offering of a large number of temporary jobs, incident to spring activities, have given work to many Clevelanders, who have been employed only part time, if at all during the late winter months.

These developments have eased the unemployment situation and although some industries in Cleveland are operating only part time, they are preparing to work full time in the near future.

*An Aid to Voice Culture*

THROUGH the instrumentality of the Cheney, the apt pupil may sit at the feet of masters of vocal music and thus learn the priceless secrets of their glorious art. The Cheney's perfect renditions of all records, giving the true tone values of the human voice, create higher ideals and point the way to their attainment.

**The CHENEY PHONOGRAPH**

The Cheney brings out even the delicate tone color recorded in the disc, which is lost in the reproductions of ordinary phonographs. The very personality of the artist is revealed in the Cheney's life-like interpretations.

The cabinets are exquisite examples of period craftsmanship—both regular and art models.

### CHICKS HAVE FLU DIE BY THOUSANDS

An epidemic seems to have broken out among the young chicks of Fayette county and they are dying by the thousands, according to reports from several communities.

The chicks apparently grow weak and fall over for lack of strength, expiring in a short time.

For want of a better name for the disease which is robbing the farmer's wife of large numbers of chicks, some of the women have announced that the disease is the "flu."

In some instances a half score of the little chicks in one flock perish in a single day.

However the number of eggs being set and number of chicks being hatched in the county probably exceed by several tens of thousands any previous attempt at chicken raising.

### ROLL OF HONOR

Supplementary casualty list number 15 carries the names of 99 casualties, divided as follows:

Died of wounds, 2; died of accident and other causes, 3; died of disease, 19; wounded degree undetermined, 13; wounded slightly, 62.

None of the casualties are from this part of Ohio.

### READY FOR WALLS

The foundations for the new building to be occupied by the Washington Savings Bank on the corner of Court and Fayette streets are virtually completed and the work of erecting the stone walls will be started some time next week.

Contractor Williams states that the building stone will be of best Bedford and that the material is now on the way.

### HORSES STRAYED

Two horses belonging to Dick Jones, of Elm street, and Harry Post, of Willard street, which were reported missing and were believed to have been stolen, were found a few miles from the city peacefully cropping the grass along the roadside. The horses had strayed from the owners' premises some time during the night, lured by the prospect of an abundance of rich pasture.

## LARGE AUDIENCE ATTENDS SERVICE

The Church of Christ was packed to the doors last night at the special series of services now in progress. The meeting was one of the best in the entire week. G. B. Dunning of Sabina had charge of the music and was assisted by the regular choir and by twenty-five or thirty boys and girls in the "Sunshine" chorus. Mrs. Dunning was present and assisted her husband in rendering a beautiful duet on the violin and Italian harp. Mr. Dunning sang effectively "Sometime" as a solo.  
 In accord with the sermon of the evening Miss Daisy Gockerill sang beautifully and with expression "What Will You Do With Jesus?"  
 The pastor used for his subject: "The Significance of the Cross."  
 At the close of the service one responded to the invitation.  
 This splendid series of inspiring services will close tomorrow with special Easter services at both the morning and evening services.

## HOW RHEUMATISM BEGINS

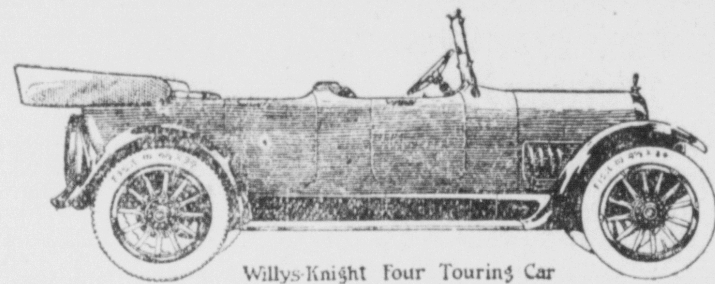

The excruciating agonies of rheumatism are usually the result of failure of the kidneys to expel poisons from the system. If the irritation of these uric acid crystals is allowed to continue, incurable bladder or kidney disease may result. Attend to it at once. Don't resort to temporary relief. The sick kidneys must be restored to health by the use of some sterling remedy which will prevent a return of the disease.  
 Get some GOLD MEDAL Haarleem Oil Capsules immediately. They have brought back the joys of life to countless thousands of sufferers from rheumatism, lame back, lumbago, sciatica, gall stones, gravel and other affections of the kidneys, liver, stomach, bladder and allied organs.  
 They will attack the poisons at once, clear out the kidneys and urinary tract and the soothing healing oils and herbs will restore the inflamed tissues and organs to normal health.  
 All others are imitations. Ask for GOLD MEDAL and be sure the name GOLD MEDAL is on the box. Three sizes, at all good druggists.
